

SUPER POWERFUL DEGREASER FOR STUBBORN GRIME BUILD UPS

GLD 13

Clinging Gel degreaser for egg processing environments and beyond

- ✓ Quickly cuts through caramelized, carbonized and burnt-on soils
- ✓ Clinging gel provides 100% surface contact and eliminates messy drips and waste
- ✓ Eliminates unpleasant fumes and misting for a safer work environment
- ✓ Protects stainless steel from blackening
- ✓ GLD 13 can be applied to ovens, grills, stove hoods, vents and boilers

AREA OF APPLICATION

GLD-13 is a strong clinging gel degreaser that provides 100% surface contact. When used in a knapsack sprayer, the spray action ensures that the GLD-13 gel covers all areas efficiently while ensuring that the gel penetrates the protein soils. The gel forms a key part of the chemical formulation to guarantee maximum contact time with the surface. GLD-13 has penetrating effect cutting through the caramelised, carbonised, and burnt-on/baked-on soils which make it effective to use in the poultry industry. In addition, it eliminates hazardous fumes and flash backs.

BACTERIA	DILUTION
Escherica Coli	1:200
Staphylococcus Aureus	1:200
Pseudomonas Aerginosa	1:200
Enterococcus hirae	1:200

PROPERTIES

• Appearance:	Liquid
• Odour:	Light pink
• pH	12.0 - 13.0
• S.G.	1.06
